Karen Moore Cause of Death – Obituary Davie: Body of missing woman from Davie found 22 years later.

On January 6, 2023, Depths of History and Sunshine State Sonar Search Team joined forces to find Karen Moore in a retention pond just a few kilometers from her home.

On June 26, 2001, Karen Moore was last seen in Davie, Florida. She vanished along with her car, a 1999 Saturn four-door in white with Florida license plate D00THU. With this case description comes a picture of a car that looks comparable. Moore has vanished without a trace.

In 2001, Moore worked as a nurse. She had a restraining order against her husband and was going through a divorce. She vanished in a suspicious manner, and someone is probably trying to hurt her. We send our sympathies to her family and friends.
