Missing Persons Index and Unidentified Victims Index

The descriptive wording under search options on the missing and unidentified indices (plural of index) has been modified. Originally called "Picture Index" is now called "Numerical / Photo" Index as a more accurate description. The wording change was added for clarity as often LE and media have expressed an interest in an index in numerical order.

### **Announcement**

Charles Heurich, program manager and leader of the team for the National Missing and Unidentified Persons System (NamUs.gov), has been named the winner of the Samuel J. Heyman Service to America Medals (Sammies) in the Justice and Law Enforcement category NFSTC

Coming soon - Doe Network Labs featuring: Juan Doe Network

Spanish Translation of Doe Network. We have translated our site into Spanish using Google Translator, a very simple process. By using the current technology we are able to move toward new frontiers of outreach sooner.

It is our hope that the Spanish translation can be used to more quickly highlight cases where Hispanic migrants have perished in their journey northward from the various nations of Central America. The first steps of our intention to provide a greater service to the Hispanic community.

Featured effort: "Found Items of Lost People" - operated by a Doe Network volunteer
