## **Announcements**

Oklahoma's I MISS U Day - September 8, 2012

The Oklahoma Office of the Chief Medical Examiner is hosting a Missing Person event, "Oklahoma's I MiSS U" day, on September 8, 2012. There are over 11,000 missing persons in the United States and additional information is required in the investigation of unidentified and missing persons cases. Families and friends of missing persons are asked to bring information that will help in locating their missing person, such as medical information, dental records and photographs. Representatives from the Medical Examiner's Office, NamUs and law enforcement will collect DNA from family members and enter new data into NamUs, the national database for missing and unidentified subjects

Doe Network translated to Arabic

Doe Network translated to French

Doe Network translated to Bulgarian

Doe Network translated to Afrikaans - Afrikaans is a West Germanic language, spoken natively in South Africa, Namibia and to a lesser extent in Botswana and Zimbabwe. It originates from 17th century Dutch dialects spoken by the mainly-Dutch settlers of what is now South Africa, where it began to develop independently.

Doe Network translated to Albanian

### **Announcements**

Kelly Zirbes was inspired to write '28' <http://soundcloud.com/kellyzsongs/28-1> in 2002 after hearing John Walsh mention that his son, Adam, would have been 28. After hearing many more stories in the media and through friends she finished the song to bring awareness to what "we are missing" when our loved ones are gone. It is dedicated to all of those who are missing, who are found and those who search to bring their loved ones back home.

Kelly kindly offered the song to the Doe Network to help raise awareness to the missing & unidentified.

## **Announcements**

NamUs new database...., UnClaimed Persons database. The UnClaimed Persons database (UCP) contains information about deceased persons who have been identified by name, but for whom no next of kin or family member has been identified or located to claim the body for burial or other disposition. Only medical examiners and coroners may enter cases in the UCP database. However, the database is searchable by the public using a missing person's name and year of birth.
