Born at Omiroupoli, Chios, Greece, to biological birth parents Aspasia PSORA and BENETOS in 1946. Adopted by Alexandros and Margarita Patmios. ~ Identity unknown; found deceased along Porter Road in Bear, DE. Believed to be between the ages of 16 - 25 years.

The Back Story is several Greeks have been assisting a male in Greece in his search for his half sister. While we were searching, the Greek male brother uploaded his DNA to GEDmatch and he has a match to a female who had high cMs indicating it was a sister; her DNA was uploaded by a female from the Channel Islands which completely stunned us. While this was happening, we learned that the female DNA on GEDmatch was a DNA match to a female left on a road in Bear Delaware, possibly due to a "criminal abortion." The brother in Greece does not speak English but a female Greek friend (living in Greece) contacted the Delaware Forensics Division. Many months ago, the Greek Police obtained the brother's DNA and submitted the DNA to the Delaware

Forensics Division. We are waiting on the Coroner to submit his report, even though he told the Greek Brother that he, in fact, is a DNA match to Patrona (Patra) Patmios, the deceased female found in Bear, Delaware, on 18 March 1967. 1 December 2022
